

## De-Mountable Sign Boards

The demountable sign board is designed to operate as a compact self-contained unit that will adjust to fit a wide range of pickup trucks. The signboard is a 2.3m x 3.0m aluminium sign panel with the facility to fit a range of signs, which can be easily stored within the unit itself. The signs themselves are faced with material to meet the latest chapter 8 legislation.

- Fully self-contained unit with its own power.
- Micro prismatic reflective rear facing surfaces.
- Fourfold light with auto dim for night time use.
- Self-contained batteries with charging unit.
- Fully compliant with latest Chapter 8 requirements.
- Designed to be easily loaded by fork truck (optional demountable pack is available).
- Split signboard for easy stowing without rear projection.
- Reduced drag with signboard in stow position.
- Full remote operation.
- Fully width adjustable for safe installation in different trucks.
- Fitted with swinging beacon.
